

JAPS TO TAKE FORTRESS AT ANY COST

WASHINGTON, November 25.—The Associated Press learns on excellent authority that the Japanese army has been ordered to renew its attack on Port Arthur today and to take the main fortifications at any cost.

DENIES STORY OF QUARREL.

Huntington Says He is
in Harmony With
Harriman.

LOS ANGELES, November 25.—Henry E. Huntington in an interview today relative to the alleged differences existing between himself and E. H. Harriman and I. W. Hellman in the ownership and policy of the Pacific Electric Railway Company, said:

"Mr. Harriman and myself are in perfect accord in all matters in which we are jointly interested. I am not worrying a bit about the future, and you may say that our work of construction will go on uninterruptedly."

Authoritative announcement was also made of the fact that I. W. Hellman is not represented in the new directorate of the Huntington outside lines. In addition, it was said emphatically that the Santa Ana extension will be rushed to early completion, paralleling the Southern Pacific.

YOUNG PUTNEY IS AT HOTEL.

FAMILY WILL NOT TELL WHERE
HE SPENT HIS TIME AND
MONEY.

ST. LOUIS, November 25.—Stephen Putney Jr., the son of a wealthy Richmond, Va., shoe manufacturer, who disappeared nine days ago while visiting the World's Fair, returned today to the Hamilton Hotel, where his brother, Langhorne Putney, is stopping, in company with a friend of the family, who had been sent to Kansas City to get him.

Young Putney, for whom the police and his relatives have been searching since the day after his disappearance, was in Kansas City all the time, it is stated.

His family refused to discuss Stephen's return, saying that his explanation of his absence was satisfactory and that they desired no more publicity of the affair.

Young Putney, when he so suddenly disappeared, had with him jewels valued at more than \$1000, and less than \$100 in money. The story that young Putney was kidnapped is discredited by the police.

WIRELESS DISPATCH TELLS OF DEATH.

NEW YORK, November 25.—A wireless telegraph dispatch received here this afternoon reported the death of Jimmy Michaels, the professional bicycle rider, on board the steamship La Savole.

DISMISS CHARGE.

The charge of assault with a deadly weapon against Nick Sustanovich preferred by John Noble was dismissed today by Police Judge Smith as the complaining witness refused to swear to a complaint.

NATIONAL BANK FAILS.

Loaned Too Much Money
on Mining Interests
in North.

WASHINGTON, November 25.—The Big Bend National Bank of Davenport, Wash., has been closed by direction of the comptroller of the currency because of insolvency, and National Bank Examiner Eugene T. Wilson has been appointed receiver. The failure of this bank, according to a statement issued by the comptroller, is due to loss sustained upon excessive loans, principally to mining interests with which the officers of the bank are identified.

The following statement of the resources and liabilities of the bank is shown by its last report of condition to the comptroller November 10, 1904:

Resources—Loans and discounts, \$391,158; overdrafts, \$55,460; United States bonds, \$12,560; bonds, securities, etc., \$2753; banking house, \$2360; other real estate, \$3064; due from banks and bankers, \$70,944; cash and cash items, \$33,435; redemption funds, \$825. Total, \$574,963.

Liabilities—Capital stock, \$50,000; surplus and profits, \$36,454; circulation, \$12,500; due to banks and bankers, \$2134; deposits, \$433,874; bills payable, \$40,000. Total, \$574,963.

CAUSE OF FAILURE.

SPOKANE, Wash., November 25.—The Chronicle to-day says:

The effort to carry through a huge mining enterprise is believed to be the chief cause of the closing of the Big Bend National Bank at Davenport, Wash., to-day.

This enterprise is the driving of a tunnel into Palmer Mountain in Okanogan County for a distance estimated at two miles, cutting many veins of gold and silver ore at great depth. For several years C. C. May, the president, and ex-Lieutenant Governor F. H. Luce, a director of the bank, have been backing this plan and it is believed the bank has been involved by heavy loans to further the plan. The bank has been regarded with caution by other banks for many months and the collapse was not entirely unexpected.

The bank had no branches and so far as known was backing no business houses. Its depositors were mainly farmers, among whom President May had great personal popularity. The other banking house at Davenport is stated to be in good condition and it is stated the country banks of Eastern Washington are in the best condition they have been for years.

It is not impossible arrangements may be made for the Big Bend National to reopen.

DIAMOND ROBBER TO STAND TRIAL

SACRAMENTO, November 25.—Governor Pardee today honored a requisition from the Governor of Arizona and issued a warrant for the return of John F. Harcourt to Tucson to stand trial on a charge of diamond robbery. An officer recently came here from Arizona for Harcourt, but a warrant was denied him on the ground that the papers from Tucson were not in proper form.

The matter was referred to the Attorney-General, who has reported that the Governor of California would be justified in issuing the warrant. Harcourt is under arrest at Los Angeles.

BATTLESHIPS IN THE CANAL

SUEZ, Nov. 25.—Two Russian battleships, three cruisers, seven torpedo boats and destroyers and nine transports from Port Said have arrived safely at the Bitter Lakes, in the Canal, where they are anchored for the night.

CAPTURE OF PORT ARTHUR IS EXPECTED ANY DAY.

PREPARING FOR A CHARGE: JAPANESE INFANTRY THROWING AWAY THEIR OVERCOATS AT LIAOYANG.

Japs Make Important Captures and Have the Enemy in Close Quarters.

TOKIO, November 25.—It is reported that the Japanese saps directed against Rihlung mountain and Sungshu mountain and East Kekewan mountain have reached the base of the center ditches.

The defensive works outside the parapets of Rihlung mountain and Sungshu mountain, have been captured, leaving the Russians in possession of the parapets only.

The Japanese guns are shelling the parapets and inflicting heavy damage. The occupation of the forts is expected shortly.

If the forts are taken the capture of Port Arthur proper seems assured within a short time.

ALL IS QUIET AT THE FRONT

ST. PETERSBURG, November 25.—

A telegram received from General Kurapatkin under to-day's date says all was quiet on the front up to last night.

NO NEWS FROM PORT ARTHUR

CHEFOO, November 25.—There is no news from Port Arthur to-day.

RUSSIANS HAD TO BEAT RETREAT

TOKIO, November 25 4, p. m.—Mandchurian headquarters, telegraphing under date of November 24, says:

"From 1 o'clock on the night of November 23, the enemy's infantry made a series of attacks against our outposts at Lamutung but the entire attacking

force was compelled to retreat northward before our fire.

"Simultaneously the enemy's artillery bombarded the neighborhood of the Shaku railway bridge, firing thirty rounds but without doing any damage to us."

LAUNCH SERVICE IS INAUGURATED

SHANGHAI, November 25.—Advises received from Chinanfu say that a launch service between Chinanfu and Yangkiakou was inaugurated to-day in the presence of the Governor and other high officials. A weekly service has been arranged between Yangkiakou and Chefoo, and there will be a bi-weekly service between Yangkiakou and Tien Tsin.

COUNTY RETURNS MISSING.

Complete Election Returns
Are Awaited at
Sacramento.

SACRAMENTO, Nov. 25.—Complete returns of the late election in California have not yet reached the office of Secretary of State Curry, where a force of clerks is engaged in adding up figures. The Secretary of State must make a report to Governor Pardee as to the result of the election by next Monday but the returns of five counties are still missing. Those counties are San Francisco, San Joaquin, San Diego, Los Angeles and Shasta. It is expected that the missing returns will reach here by next Monday morning.

The returns already at hand indicate that the proposition to reduce the number of legislative employees and to increase the number of legislative days from 60 to 80 days, was defeated by 2728 votes.

SQUADRON SAILS.
RIO DE JANEIRO, Nov. 25.—The United States South Atlantic squadron sailed for Bahia today.

MIDDLE COURSE IMPOSSIBLE.

EMPEROR IS GIVEN ADVICE IN
CONNECTION WITH ZIMSTVO
MEMORIAL.

ST. PETERSBURG, November 25.—The Associated Press correspondent to-day saw M. Pobodonostz ff, procurer general of the holy synod, who is credited with having informed the Emperor, in connection with the presentation of the Zemstvo memorial to His Majesty, that no middle ground is possible at the present moment.

This remarkable man, who has exercised so much influence in the council of the Empire, is now a mere shadow, almost four score, and his tail, withered from seemed bowed beneath the weight of his dully chiseled, dome-like head.

Nevertheless, fire still sparkers in the sunken caverns of his gray eyes. An impression of wonderful vitality still clings to the ghostlike figure.

He to-day received the correspondent of the Associated Press in a kindly manner but absolutely declined to discuss the Zemstvo movement.

"I am an old man," he said. "Little time yet remains but the days and thoughts still granted me are consecrated to church affairs. The world concerns me no longer."

OVER AN ESTATE.

Heirs of C. B. Slicer to
Battle For His
Estate.

A fight between the Carpenter and Slicer branches of the heirs of the late Charles B. Slicer has led to a contest being filed over the probate of the will of the deceased, and allegations of fraud and undue influence are made for the purpose of having the instrument set aside and the estate divided among a sister and ten nephews and nieces of deceased. According to the will the entire estate, amounting to about \$10,000, is left to the surviving sister, Harriet Slicer Carpenter of Alameda, whom it is alleged got her brother into her house after he had submitted to an operation at a hospital and while in a weakened state of mind got him to will her his entire property.

The deceased left no direct heirs, he having no family. Surviving him, however, was a sister, Harriet Slicer Carpenter, and her two children, of whom Hugh Carpenter, manager of the Sunset Telephone Company in Alameda, is

CAR IS CUT IN HALVES.

Passengers Injured in
Collision at Clevel-
and, Ohio.

CLEVELAND, O., November 25.—Fifteen people were injured, three and possibly more of whom will die, as a result of a collision between a fast south-bound train on the Cleveland and Pittsburg road and a trolley car on the Northern Ohio Traction line today near Bedford. The trolley car was struck by the passenger train while the latter was running fully fifty miles an hour.

The electric car was cut completely in two and the wreckage thrown sixty or seventy feet to one side. The electric car carried as passengers fourteen men and one woman, all of whom were more or less severely injured.

FUNERAL OF LATE FRANK J. MOFFITT

The funeral of former Senator Frank J. Moffitt will be held from the church of St. Francis de Sales tomorrow morning at 10 o'clock.

Following is the list of honorary pallbearers for the funeral:

William J. Dingee, Judge William P. Lawlor, Warren B. English, W. E. Dargle, James V. Coleman, Garrett McEnerney, Philip M. Walsh, Robert McKilloan, G. W. Baker, Fred S. Stratton, Thomas H. Williams, Jr., Geo. Hazelton, M. J. Layman and T. E. Hansen.

Senator Moffitt leaves a handsome estate of between three and four hundred thousand dollars. His property is almost entirely gilt edge bonds and dividend-paying stocks. He possessed but little real property. Contrary to an impression prevailing in some quarters, he was not a stockholder in the Contra Costa Water Company. He never held at any time more than a few shares of that corporation. His close personal relations with William J. Dingee dating back many years caused many to fall into the error of supposing him to have a large interest in the water company. He owned no water company stock.

SUES HIS SON FOR DAMAGES.

OLD MAN BRINGS ACTION
AGAINST BOY AT SAN JOSE.

SAN JOSE, November 25.—Charles Caton, aged 88 years, to-day brought suit to recover fifteen thousand dollars from his son F. E. Caton, who is president of a large local co-operative foundry company. The father alleges that he was violently assaulted on two occasions within the past year by his son, also that the latter recently caused his arrest and imprisonment on a false charge of insanity.

BEGINS SEWER WORK.

Superintendent of Streets Ott has commenced operations on the Third street sewer which is to be laid between Center street and Peralta street.

HILLS TO BE TURNED GREEN.

Scheme to Beautify Goes
With the Greater
University.

BERKELEY, November 25.—The bare brown hills behind the University of California will soon be covered with a forest of green pines and firs and other Coast Range trees. The plan for the beautification of the hills has been conceived by the superintendent of the University grounds, Arthur L. Bolton, who has already planted several hundred pines and firs and as many more oaks and madrones in the protected hollows of the hills behind the Greek theatre and beyond the present line of gum trees.

The location for a redwood forest on these hills, according to Mr. Bolton, is superb. The shaded hollows and the northern slopes are adapted for redwoods, firs and madrones and already hundreds have been started by the university nurserymen. On the poorer ground and the southern slopes, tan oaks, manzanitas, white oaks and the harder trees will be planted. The trees that have already been started were brought down from the forests of Mendocino county especially for this purpose by Superintendent Bolton and F. Hein nursery foreman of the University.

With proper attention the trees that have been set out should make quite a sturdy showing within five years and in ten years' time should have grown into a forest of great beauty and considerable size. The planting has all been done in conformity with the plans for the Greater University of California and in coming years will add greatly to the beauty of the present University site which is considered by many to be the grandest in the world. The scheme being followed will work out into a native forest with natural exposures such as cover nearly all the Coast Range hills and mountains.

A grove of redwoods and firs interspersed with madrones and acacias has also been planted at the south or Bancroft end of the new football field on the Hillegas tract. This will hide some of the present ugliness of the great wooden bleachers that somewhat disfigure a pretty residence section of the college town.

The redwood seedlings used by the University in its plan to beautify the University property are the gift of Regent Foster and the Northwestern Lumber Company.

PRESIDENT IN OHIO.

GREAT CROWD GATHERS AT THE
STATION TO GREET
HIM.

COLUMBUS, Ohio, November 25.—President Roosevelt's special train reached Columbus at 2:40 and left at 2:50 p. m., after engines had been changed.

Herrick and Mayor Jeffrey, and other officials met the train. The President was lined with people. The President appeared at the rear car and said he was glad to pass through Ohio and that Ohio had given him such a majority in the election.

EMPEROR NICHOLAS NOT UNDER A DELUSION.

Ruler of Russia Still Has Zemstvo Memorial Under His Consideration.

ST. PETERSBURG, November 25.—According to the best information available the Zemstvo memorial is still under consideration at Tsarskoe Selo. Emperor Nicholas is said to be under no illusion regarding the gravity of his decision and is giving the memorial the most careful and most earnest consideration.

By some he is represented as greatly concerned and grieved over the situation both at home and abroad, to be weary of the war and unrest in the interior, ready to welcome any honorable means to bring the war to a conclusion and anxious to remove the causes for discontent and restore tranquility at home.

The influences surrounding him, however, are said to be almost entirely hostile to concessions. The statements made in these dispatches several days ago that the revolutionaries had announced a truce pending the decision of the government on the question of convoking a sort of elective national assembly to pass upon the Zemstvo program is confirmed from several quarters and is expressed that if the

whole Zemstvo program is rejected there may be a revival of the old terrorist duel.

The Emperor is said to have been acquainted with Interior Minister Sviatopolk-Mirsky's irrevocable decision to remain in the ministry if the policy of liberalism of which he went into office is abandoned.

The reactionists and bureaucrats profess to see no danger in the present situation, declaring their belief that the agitation provoked by the Zemstvo will soon sink out of sight and affairs resume their normal sway.

If concessions are made, they say, they will be slight and mean little. Prince Sviatopolk-Mirsky himself, although for different reasons, is represented as also opposed to the radical departure of a liberal regime.

According to his opinion, it must come gradually and without shock. In this respect his opinion is shared by many Liberals who believe that concessions in the right direction must inevitably lead to a full realization of their hopes.

Others believe that the real crisis will be postponed to the end of the war.

BETTER MARINE URGED.

Secretary Metcalf is Invited to Attend Conference.

WASHINGTON, November 25.—The Merchant Marine Commission resumed its session today. Senator Gallinger, the chairman, announced that the hearings were not concluded but that the commission had thought it proper at this time to invite rival and postoffice department officials to be present today, the former to submit their opinion of the desirability of a merchant marine as auxiliary to the navy and the latter to speak for the benefits to accrue for the postal service as a result of an improved merchant marine.

Secretary Metcalf of the department of Commerce and Labor also was invited to attend the hearing.

Secretary Metcalf's view of the relation of the government to the merchant marine in the foreign trade was that it was simply a question of competition. He said that in order to build up a large American shipping interest in this country it will be necessary to meet the competition of other nations. It will further be necessary, he declared, to in some way recognize the mail contracts, the subsidies, the tonnage and the premiums of Germany, England and other countries.

The American owner of sea-going craft and the American sailor, he said, must be given equality in all respects if they are not to be handicapped by foreign competition. It was his idea that all ships built in this country should be constructed in accordance with plans approved by the Navy Department so that in case of war the department could make good and efficient use of them. He added that he was not sure but that the seamen also should have naval training.

ENTHUSIASTIC PLANS FOR C. E. RALLY

The indications are there will be a large attendance at the Endeavor rally to be held at the First Congregational Church in this city Sunday at 2:30 p. m. in honor of the visit of Leon V. Shaw, of Los Angeles, the State President. The announcement of his coming has aroused much enthusiasm among the Endavorers of Alameda county, as well as among the friends of the Endeavor movement.

Mr. Shaw will make an address, and there will also be addresses by Rev. E. H. Hadlock, State Field Secretary, J. W. Hatten, President of the Golden State Endeavor Union and Bay E. E. Baker of this city, interspersed with special music. It is expected that several of the other State officers, besides Mr. Shaw, will be present. The meeting will be free of all.

COTTON GINNED.

WASHINGTON, November 25.—The Census Bureau today issued a preliminary report on the quantity of cotton ginned to November 14, 1904, in 621 counties from which reports have been received. It shows 26,817,475 bales of cotton against 25,216 for the same period and 27,400,000 for the same period in 1903, and a total for the same period in the same counties in 1904 of 8,251,125 running bales against 8,414,655 in 1903.

BREWERY WORKERS PLEAD.

Lively Debate Before the American Federation of Labor.

SAN FRANCISCO, November 25.—The most important of the trade jurisdiction disputes, that exists between the brewers and the engineers, the firemen and the teamsters employed at breweries, was brought out on the floor of the American Federation of Labor convention today.

All men employed about breweries at the present time are organized not as a union of their craft, but as a part of the brewers' union. Representatives of the teamsters, the engineers and the firemen's international unions asked the delegates to the convention to vote favorably on a resolution calling for the men employed in these trades about breweries to be compelled to join the unions of their respective crafts.

An able argument on behalf of the existing condition of things was made by Delegate Kemper of the International Brewery Workers' Union. He held that it was unjust to take from their organization against their will.

As to teamsters he claimed, there were really none in his organization, namely as the men working at hauling were known as brewery wagon drivers.

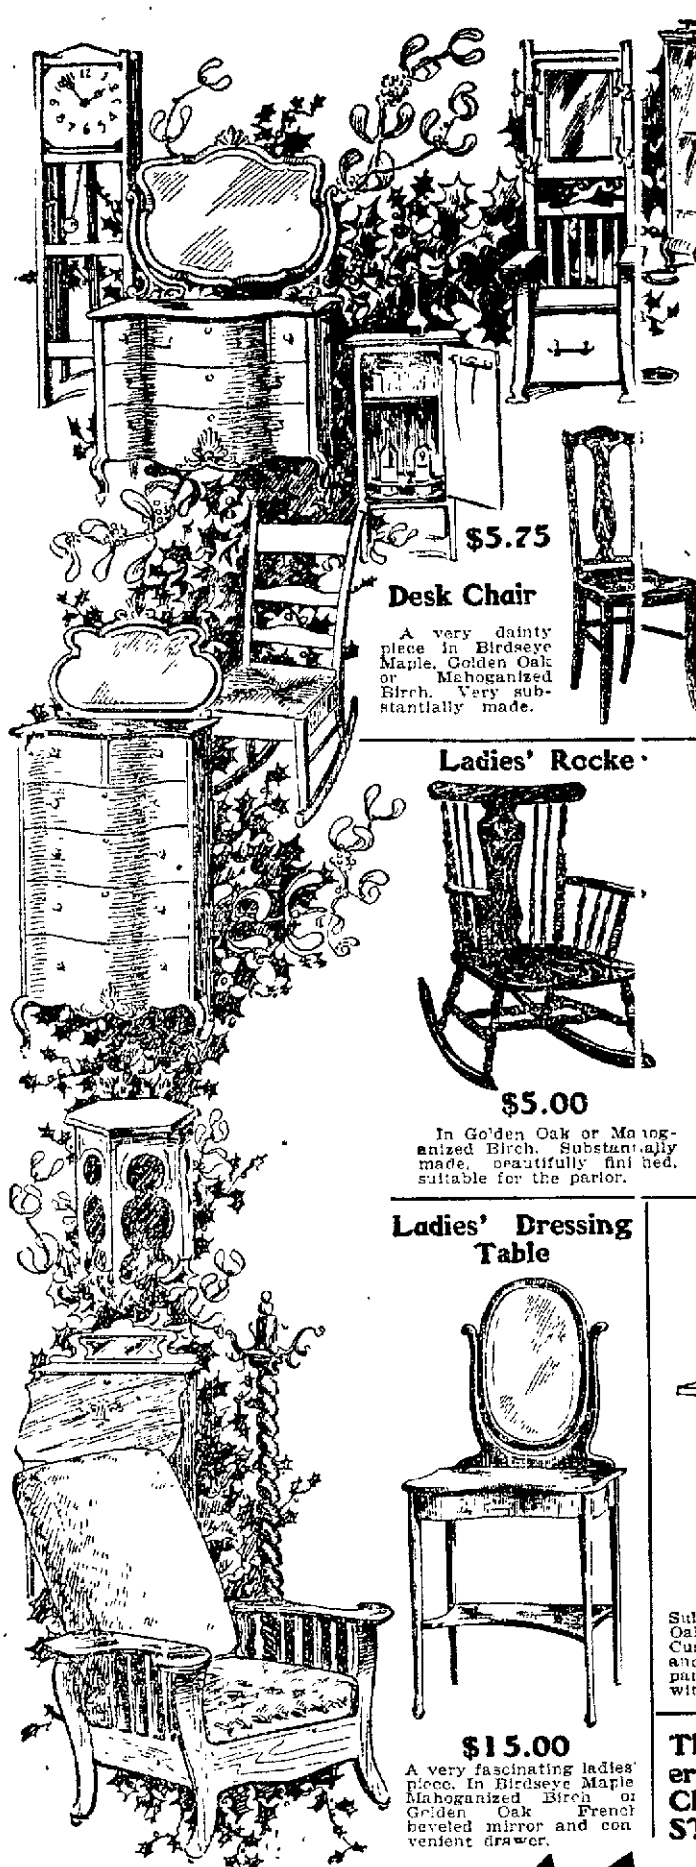

The resolution as originally introduced was so worded as to read that engineers, firemen and drivers employed about breweries may become members of their respective craft organizations and secede from the brewery international organization if they so elect.

An amendment was proposed by motion that the word "shall" be substituted for the word "may."

It was over this question that the debate was waged.

Representatives of the brewers, firemen and teamsters organizations argued that unless the question was settled so that the men of each craft would belong to a distinct union the very foundation of organized labor was threatened. It was claimed by them that as the Boston convention voted that the Brewery Workers' Union must regard trade autonomy in the matter, and inasmuch as up to the present they had not complied, the brewers' organization should be suspended from the American Federation of Labor until they complied. Claims were made that when engineers and firemen not belonging to the brewers' organization went on strike non-union men filled their places and were thereupon organized by the Brewery Workers' Union. As the matter now stands, the convention believes that the compromise will end the bitter fight which has existed between the unions in question for the past several years. Engineers, teamsters and firemen may now elect the organization to which they desire to affiliate. The Brewery Workers' Union must abide by this decision within six months or have their charter revoked by the American Federation of Labor.

Charges were made that the Brewery Workers' organization had filed the places of striking engineers and firemen in St. Louis and Belleville, Ill., and that they had sued out an injunction against the engineers of Buffalo. A motion was made to have the American Federation of Labor compel the Brewery Workers' Union to withdraw all pending injunctions against other trade organizations, dissolve all such in force and to refrain the striking

SAN LEANDRO COUPLE ARE NOW DIVORCED

An interlocutory decree of divorce was granted to John C. Silveira this morning by Judge Meritt from Mary Silveira on the ground of cruelty. A minor child was awarded to the custody of the father. Silveira is a resident of San Leandro and charged his wife with having induced a criminal conspiracy by her behavior with other men.

SANTA MARIA ON THE MOVE.

OIL PIPE LINE IS BEING LAID FROM PORT HARBOR.

SANTA MARIA, Cal., November 25.—A prominent oil company is laying a pipe line from its wells south of town to Port Harford, where large tanks for the storage of oil are being placed. This will connect the local oil fields with all coastwise transportation. The new town of Orest, on the Pacific Coast Railroad, within a mile of the oil territory, is making rapid progress.

The town of Santa Maria is filled with employees of the oil companies. There is not a vacant house here and much building is in progress.

A new national bank, making the third of that kind in the place, will soon be opened and the electric light plant is being enlarged.

OLD MAN GOES INSANE WHILE PATIENT AT HOSPITAL.

John Donovan, an old man who was removed last night from Providence Hospital, was taken to the County Infirmary today. He had become unmanageable at the hospital and would not stay in his room, and was sent to the Receiving Hospital that he was insane. While flighty at times it is not believed that he is permanently affected, and he was sent to the County Infirmary to see if the change would not result in benefit to him.

Donovan states that he is an author, and at other times that he is a capitalist having considerable wealth in San Francisco. He maintains that he has written articles for the various Eastern magazines and that under the names of John Wise Sutherland he was one of the best known writers on historical subjects in the United States.

It was no Snide Turkey

that the Pierce Hardware Company gave away Wednesday afternoon. The correct guess was made by about a dozen people—

23 lb. 3 oz.

Their names were put into a hat and a little girl, blindfolded drew out the name of

LEWIS LARUE of East Oakland who was awarded the turkey.

Immediately after the award a brauer bought the bird from Mr. Larue, giving a bonus above the market price, saying that the bird was too good to kill.

GAMBLER SHOOTS FRIEND.

Dying Man Will Not
Make a Charge
of Murder.

NEW YORK, November 25.—Dan Roche, a well known gambler, was shot and probably fatally wounded last night on Broadway while the side walk was crowded with people returning from the theaters. Stewart A. Pelton, under arrest charged with the crime.

"If I live," Roche said, "I will settle the case myself. If I die let it go at that." "I was his only answer."

"I DON'T BLAME YOU," Roche told the detectives that he and Pelton had quarreled but that he could not recall the cause of the trouble. "At the close of the interview," the wounded gambler turned to Pelton and said:

"WONT YOU SHAKE HANDS I RANK?" Pelton did not reply and did not appear to notice Roche's request. "Oh, don't act like that," Roche said, "I am old pals shake hands with me."

After the officer had said a cab with the prisoner they tried to put him through a third door, but the crowd broke up and the man was lost.

THE THEORY OF THE POLICE is that Roche carried a revolver in the pocket of his overcoat which they found at the time of the shooting. A man in the crowd who saw Roche in the pocket of the shooting, had occurred.

SELF DEFENSE. To Coroner Scholer the wounded man repeated his statement that Pelton was the aggressor. He said that the two were in a fight and that Roche was the victor. He said that he was shot in the back and that he was unable to defend himself.

WOMAN CALLS. Roche declared that he was a religious man and that he was a member of the church. He said that he was a good man and that he was a member of the church.

WOMAN TO GIVE EVIDENCE.

She Will Testify Against
Nan Patterson at
the Trial.

NEW YORK, November 25.—A new and important witness whose identity thus far has been carefully concealed will be brought forward by the prosecution in the trial of Nan Patterson for the murder of Chesley Young according to a story which a reliable source in the city has learned.

Beyond the statement that the witness is a woman that she is young and that she was well acquainted with both Young and the woman now on trial, the report was made in the city. Of the nature of the disclosures which the witness is expected to make nothing could be learned.

The testimony is considered of great importance by the prosecution, however, since the witness is a woman, it is believed that she will be able to give a more complete and accurate account of the events leading up to the murder than the other witnesses.

It has been claimed since the arrest of the woman, that the prosecution had secured possession of letters which it is alleged show that the defendant made threats against the life of Young but the documents which it is said will be produced as a complete surprise are of a different character.

Pres. Roosevelt Thanks
Pittsburg For His
Majority There.

PITTSBURG, November 25.—The special train bearing President Roosevelt and party en route to St. Louis reached Pittsburg at 10:35 a. m. and let over the Kan Handle road for St. Louis ten minutes later. Quite a crowd greeted the President upon his arrival here and just before he came out on the rear platform and made a short address. He said:

"I am very glad to get to Pittsburg. I have been here several times, especially to the fair. I will do all that I can to show you that you have made no mistake."

A large squad of police and detectives was present and only the newspaper men and the employees were permitted within the train shed. A large crowd gathered in front of the depot and train shed and the President passed from the depot here to the hotel.

ABUSE OF ROOSEVELT CAUSED IT

It is asserted that the magnificent majority won by Mr. Roosevelt far exceeds the strength of his party. This is proven by the fact that in many States in which he polled a large majority Democratic Governors were elected and all States in which election for State officers were held a Roosevelt man for the party ticket.

William E. Dargie, President.

Frank J. Moffitt.

When a tree stands out larger, taller, specially prominent among its fellows of the forest every crooked limb, every knot, gnarl, blemish or other blemish becomes doubly conspicuous. It is so with men. Those who forge their way to the front by sheer dint of force, talent and capacity for leadership, and lift their heads above others have their faults and foibles brought into bold relief. The envious, the captious and hypercritical are apt to judge them by their shortcomings rather than their higher and nobler qualities, and to ascribe success to blemishes rather than to powers of mind and the strength of character which have carried their possessor onward and upward in spite of failings and untoward circumstance.

Frank J. Moffitt was a striking example of this truth. He was truly a remarkable man, more remarkable than the great mass of his fellow citizens realized. To a certain extent he was the creature of environment, but he rose superior to surroundings. He conquered fortune with his bare hands. His surprising mental endowments had in them an expansive element that perceived possibilities far ahead. He never placed his foot on the bottom rung of the ladder till he saw the top, and he was never content till he had made the full ascent. His mind had a certain impervious quality that revolted at explanation or a surrender to necessity. He had rather be misunderstood than acknowledge defeat. He had rather be cursed than pitied. He preferred making men respect him by fighting them to earning their good will by sacrificing his independence. He was a born dictator.

Frank Moffitt was a many-sided man. To different men he appeared in a different light. If he was ruthless in conflict he was magnanimous in victory. He could never withstand an appeal to his generosity. No man could be gentler and kinder to a stricken foe. In his heart no man had more reverence for good women, more genuine respect for good men. No man had a higher appreciation of constancy, loyalty and virtue.

But no man had a heartier loathing for hypocrisy, a greater contempt for hypocrites. Nothing gave him so much satisfaction as stripping the mantle of mock virtue or the cloak of bogus piety from the shoulders of some Uriah Heep or Pecksniff. He could tell a counterfeit at a glance. He had an unerring eye for weaknesses of character. He was rarely mistaken in his man and never for long. If he had a burning scorn for hypocrisy, he had the broadest charity for weakness. Distress never failed to touch his heart and his purse. He often cursed a man's faults while relieving his distress.

Frank Moffitt's loves were as strong as his hates were bitter. He was loyal to his friendships above everything else. Subsequent estrangement never caused him to forget or disavow a favor. While he provoked many enemies, he inspired confidence and affection. Many men loved him. His contradictory nature led him to affect a cynicism toward those who confided in him and loved him and to assume an indifference to public opinion he did not feel. He carried his hatred of sham and hypocrisy to the extreme of magnifying his own faults and pretending to be worse than he was. He resented the incapacity of the average man to distinguish the true metal from the dross. To some he deliberately presented himself in a sinister light. He experienced a grim satisfaction in shocking the unco' guid. He delighted to exhibit himself as a sort of Frankenstein to the sham patriot and sham saint. Yet he profoundly revered holy things and was imbued by an ardent love of country.

One of his gravest faults was an extreme license of speech in his earlier years. Being a man of fierce temper and tempestuous passions, this license led him to say things which he deeply regretted in his calmer moments but which rankled long in the minds of others. Later in life he gradually discarded this characteristic and became less hasty in his judgments and less severe in expressing them. After passing through the stormy stages of his career he desired to heal the hurts he had given and to make amends for injustice done his adversaries. His nature was essentially kindly, his sympathies broad and deep and his sense of justice strong. When his armor was off he was as tender as a woman, generous, considerate and charitable.

Frank Moffitt's influence on this community was far-reaching and extended over a period of twenty years. He used men without their knowing it; he influenced the course of events when the public little suspected his to be the directing hand. His ingenuity penetrated every council, his mind grasped the purpose of every scheme, the scope of every measure. He saw everything and seemed to know instinctively what everybody else was doing. The movements attempted without taking him into account came to shipwreck. His hand was felt everywhere, even though it was often invisible. His great brain was seething with energy and activity, and it restlessly sought occupation even in apparently trivial things. Not even Sherlock Holmes had a greater faculty of discerning by trifles what men were, what they did and how they were circumstanced. He was so large a man that people who had known him all their lives did not realize it. He was a prophet in his own country.

He was a devoted son, husband, father and brother. He was tigerish in his determination to protect and care for his family. His hand was ever over his kindred. He never forsook one of his blood, or turned his back on a friend. He never wronged an enemy, but he was never disloyal to a friend. And he never blenched from an adversary, not even Death!

San Francisco's Dirty Street Cars.

At last the press of San Francisco has found voice to protest against the execrable service given by the United Railroads, particularly with reference to the character of the cars on the principal lines. Such cars would be creditable in a fourth class city, but the people of San Francisco seem to accept them as a matter of course. The Chronicle, however, is moved to call attention to the filthiness so obvious of the cars on the lines most heavily patronized. It says:

"Public complaints of a lack of cleanliness in the street-railroad cars of this city are multiplying. Some of the lines are worse than others in this respect. With few exceptions, there is much room for improvement, however, in the condition of the equipment of all of them.

"Somehow, improvements in the San Francisco street-car service are slower in appearing than in any other city in the State. That the service has a larger volume of traffic to handle is no excuse for the toleration of uncleanness in the rolling equipment, nor for the absence of many of the conveniences of travel which car lines in other cities with smaller populations provide their patrons. It ought, to the contrary, to be an incentive to improvement all round in every branch of the service."

This is a mild protest and a still milder statement of the case. The United Railroads has one of the most profitable systems in the world. For the money actually invested, it is probably the most profitable in the United States. Its business is constantly growing and its receipts rapidly increasing, yet its rolling stock is disgracefully shabby. Its distinguishing marks are dirt and lack of paint. The cars smell evilly, and their general appearance is disagreeably suggestive. And until recently many of the conductors appeared on duty unkempt and unshorn and wearing patched and dirty uniforms. It is strange the newspapers of San Francisco have so long remained silent about these patent shortcomings of a great public service corporation.

"I wonder why those savage men wear nose rings."
"Oh, I suppose it's easier for their wives to pull them around that way."—Illinois State Journal.

DISFIGURING STREET SIGNS.

The public spirited members of the West End Association, who have for a long time co-operated with the Tribune's campaign for street signs in this city, have again called attention to the deplorable lack of signs, even on some of the most important thoroughfares. There is need of such reminder, and it cannot be made too often or too strongly. Under Mayor Lowe's administration a good start was made toward equipping the city with signs, and we were in hopes that Mayor McClelland's administration would carry the work to completion. Thus far, however, it has failed to do so. It has even failed to keep the existing signs in repair, so that today the city, or at any rate the Borough of Manhattan, is worse off in this respect than it was a year ago.

Perhaps nothing better is to be expected of the present government of this borough. A municipal officer who could sanction the work that has lately been done on the City Hall must be regarded as capable of almost anything in the way of ineptitude. We should scarcely be surprised to find some day that the various memorial bronzes about the city had been treated to a coat of aluminum paint, or to see, some evening, an illuminated advertisement of a corn cure, changing color every half minute, blazing upon the facade of the City Hall. Yet even if taste and discretion be lacking, the commonplace and practical should make an effective appeal to him.

For, what is the alternative? Simply this, that Manhattan goes without one of the plainest, most elementary and most expensive necessities of urban civilization, and lacks the equipment which every other city, and even every village of importance, provides for itself as a matter of course. It is grotesque, or would be if it were not so humiliating and disgraceful, for the imperial capital to blunder along year after year without street signs, as though \$40,000 or \$50,000 were more than it could afford for so great a public utility, or as though a problem which has been easily and satisfactorily solved in a thousand places were too complex and difficult for the New York brain. We can have hideous signs disfiguring and obstructing our costly and otherwise admirable subway, but cannot have simple name plates at our street corners to direct travelers on their way. What an indictment of the second city of the world!—New York Tribune

RECORD CROWD AT THE TRACK.

It is estimated that yesterday's attendance at the local race track totaled 10,000 persons. Never in the history of the California Jockey Club has such a crowd as yesterday's flocked into the betting ring and grand stand. There were nineteen bookmakers handling the public's coin, but there were not enough to take in all the proffered gold. The racing throughout the afternoon was excellent and the holiday crowd returned home well pleased with the program.

Contrary to the expectations of the bookmakers, the public did not back Jennings, which is heavy. The price was market at 6 to 5, but Claude was known to be fit and he was backed with a big wall. The line to the bookmakers' side was long when Day's colors came in first.

Another good killing was made on H. L. Frank. He was offered at 5 to 1 and was doubled up at that price. He topped the coin, but in another stride or two would have lost.

Jockey Davis was the only lad to ride two winners yesterday. Jockey McLaughlin made a good ride on H. L. Frank.

Superintendent George Berry of the Napa Stock Farm witnessed the races yesterday.

Charles McCafferty is expected soon at the local track with a good string of horses.

Joe Rose saw the handicap yesterday. It is said that he made a big win on the Eastern season.

W. Woods has arrived at the local track with several horses from Kansas City.

BIDDY BISHOP HOME AGAIN.

Fresh from his triumphs in and about Seattle, Biddy Bishop has arrived in this city—his home town—and intends to enter into business. Biddy has built himself a pretty little home not a great way from the city and will be settling in the winter.

Bidding in Seattle is done just as at present, remarked Biddy today. "Politics at present interfere with the game. While Seattle is a good city and plenty of money is put in circulation, just at the present time the authorities are against the hit and block game."

"I still have Bobby Johnson and Billy Woods under contract and will seek matches for them. I have not looked into the pugilistic conditions of Oakland, but I will be there either or not I will again promote exhibitions."

"Just as soon as I get my affairs in shape I will call about and then determine what my future plans will be."

TENNIS TOURNEY FAVORITES, LOSE RESULTS. IN SOUTH.

MURDOCK AND MACGAVIN DEFEAT THE HARDY BROTHERS. ONLY TWO TAKE FIRST MONEY ON OPENING DAY.

Percy Murdock of Alameda and Drummond MacGavin of Berkeley, defeated the Hardy Brothers yesterday in the doubles tennis tournament on the Golden Gate Park court.

Of the thirty-six players entered in the California Club tournament but nine were left in the competition when darkness put a stop to play. The successful players, with their handicaps, were Al Kenyon (15), W. G. Knowlton (15-8-6), M. Little (39-3-6), Harry Rolfe (2-15), Sherwood Adams (2-15), M. Long (scratch), George Lane (2-15), George Cutler (15-8-6) and Will Collier (2-15).

The exhibition doubles match was the drawing card at the park and the largest crowd of the season turned out to witness it. By beating the Hardy's rather easily MacGavin and Murdock showed they did not play up to form at San Rafael in September. The Hardy's are probably the strongest team on the coast. It is only fair to them to state that they were not at their best yesterday. On the other hand, Murdock and MacGavin put up a remarkably good game. They obbed the contest of considerable interest by winning the first two sets easily. The third set was won by the Hardy's after fourteen games had been played. The score in favor of MacGavin and MacGavin was 6-1, 6-3, 6-8.

In the mixed doubles tournament five teams are left. Miss Vanden and Charles Foster (2-3), Miss Ethel Ratcliffe and Charles Doherty (2-3), Miss Vera Crocker and George Baker (2-3) reached the semi-finals.

SEATTLE MAY WITHDRAW FROM PACIFIC COAST LEAGUE.

Word comes from Boise City that the sports of that town believe John J. McCloskey and his team of champions that represented Boise last year in the Pacific National League, will be found wearing Seattle uniforms next year, as members of a new league to be composed of Seattle, Tacoma, Portland, Spokane, Butte and Salt Lake.

The present whereabouts of "Honest John" are unknown in Seattle, but this story from Boise sounds as if it came from the lips of John himself. The only thing the matter with the story is that it lacks truth, so far as Seattle being in the league is concerned.

There are any number of men who would like to see such a league formed and have Seattle cut away from the Pacific Coast League where this town is nothing more than a ragged wall to the California kite, but the work of organizing such a league has not progressed farther than the talk stage yet. No one around these parts wants to be a party to another baseball war in Seattle. It is too expensive a luxury, and none but "Angels" can enjoy it.

SEATTLE WAS GOOD ONCE.

It is violating no confidence, however, to state that McCloskey has hankered to be in a league with Seattle, ever since the days two years ago when Seattle was baseball crazy and the game was run along business lines. This city was then the best paying one in the Pacific National League at the head of the Butte aggregation used to carry away sack sacks filled with money.

The Pacific National League next year, composed of Butte, Spokane, Salt Lake and Boise was an awful loss, for it got into real live company once more. It would not be a hard matter to get backing for a team in the new league in Portland, if Lucas had nothing to do with it, but Tacoma and Seattle would probably fight shy of the prospect of another baseball war. If Lucas has anything to do with the scheme, however, Portland can be depended upon to get busy between now and spring organizing another circuit. They would like to get into this territory, but unless the "Angels" throw up both hands and quit or dispose of their holdings, there does not seem to be much of a chance to butt in here. Spokane tried of that "bush league" last year, and would like to get in more select company.

Butte is a dead one with Walter Williams there, but would be a money-maker with McCloskey in charge. Spokane wants to come into the Coast League, and rumors come from the South that Tacoma is to be dropped to make room for Spokane. That looks like a silly move, but there is no telling what the Coast magnates will do. Seattle is a safe gamble that he will not do so again.

UNCLE HENRY IS SAFE.

With continuous ball in "Frisco," Uncle Henry can make money even when the other clubs lose, for he gets 10 per cent of the receipts for the use of his grounds when he gets 70 per cent when his own team is at home, so if there is a chance for any one to make money, your Uncle Henry is on the ground floor.

JOCKEY BULLMAN AT ASCOT.

ENGAGED TO RIDE FOR THE STABLE OF MILLIONAIRE J. A. MURRAY.

John Bullman has been engaged to ride at the Los Angeles meeting by Trainer George W. Webb, who has in charge the horses of J. A. Murray. Mr. Murray is a millionaire banker of Montana, who purchased Cloverland at the E. R. Thomas sale the other day at New York in the name of the Golden Gate Stable. He proposes buying a much larger string and Bullman has been engaged to do the riding this winter at 105 pounds.

FOOTBALL GAME A TIE.

CALIFORNIA AND WASHINGTON CONTEST RESULTS IN SCORE OF 6 TO 6.

The eleven representing the University of California contested on a Seattle gridiron yesterday afternoon with the result that the game ended with the score of 6 to 6. Neither side scored in the first half. A series of line bucks assisted by great punting on the part of Helmut Muller gave California her end of the score. The line-up: Helmut Muller, left tackle; Haffey, left guard; Stroud (captain), center; Stern, right guard; Foster, right tackle; Oliver, right end; Kittrell, quarterback; Snead, left halfback; Kern, right halfback; Boynton, fullback.

Washington—Tibbals, left end; McDonald, left tackle; Babcock, left guard; Crim, center; Zebbarth, right guard; Ralbach, right tackle; Fullen, right end; Brinker, quarterback; Trille, left halfback; Shaw, right halfback; McElmon (captain), full back.

NEW THOUGHTS.

Are You Growing More Attractive as You Advance in Life?

BY VALENTINE.

It must eat to live. We must eat properly to be beautiful and to be healthy. Digestion is the key to beauty. If one article of food does not agree with you, try another. But don't try cosmetics until you have corrected every fault of digestion. Pretty women often sacrifice their beauty to digestion. It is a fact that any form of dyspepsia may in a few days transform a clear, white skin into a mass of pimples and black spots. A beautiful woman has the beauty of her stomach. The oft quoted phrase, "The way to a man's heart lies through his stomach," is true in a medical sense, for a distended stomach caused by indigestion will cause heart palpitation, and the blood does not get the food it requires. If the blood is watery, if it has accumulated poisons, every other organ of the body will suffer—heart, liver, lungs and kidneys. Treat the stomach as a healthy body," says Dr. R. V. Pierce, the specialist in woman's diseases, of Buffalo, N. Y., "and a healthy mind, and every one can cultivate and enjoy happiness." Riches do not make happiness, nor does it do to worry about tomorrow. Do what you can now. Do the best you know how, then boldly face the future. In nine cases out of ten the person who worries, who can't sleep at night, and feels blue, and is sad about all the world is the person whose stomach is not quite right.

Dr. Pierce's Golden Medical Discovery maintains a person's nutrition by enabling one to eat, retain, digest and assimilate the proper nutritious food. It overcomes the gastric irritability and symptoms of indigestion, and thus the person is saved from those symptoms of fever, night-sweats, headache, etc., which are so common. A tonic made up largely of alcohol will shrink the corpuscles of the blood and make them weaker for resistance. Cod liver oil makes the

stomach groan because it is irritated. What is needed is an alternative extract like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking up from the food such elements as are required for the blood, also an alternative that will assist the liver in activity and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system into a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air do not penetrate.

"I feel that I would be doing an injustice to you if I did not send you a statement of my case," writes Mrs. David W. Pierce, of Hamburg, Franklin Co., Me. "I had liver complaint and indigestion. Everything I ate disagreed with me. I suffered all the time with swelling in my head; heart beat too fast; feet and hands were cold all the time. Did not sleep well at all. Was able to get about very little. I commenced to use Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets,' and soon began to get about very well. I have been doing my work ever since, except washing. Feel better than I have for several years. I thank you most kindly for the happy relief and cure."

"I feel it a duty to write and tell you how much good your medicines have done me," writes Mrs. Robt. Muirhead, of Orchard Lake, Mich. "When I first wrote you I was in very poor health but your medicines have helped me wonderfully, and if I had taken them a little longer I would have been entirely cured. Am going to get some more of your medicine right away. I do not think there is a better remedy for indigestion and other diseases that people are afflicted with at this time of the year, than your 'Golden Medical Discovery.'"

"I had been sick for more than a year with kidney trouble," writes Mrs. Lucy Haver, of Jacksonville, Texas. "Several of different doctors treated me, but none did me any good. One doctor said I never could be cured, that I had Bright's disease. I suffered nearly death at times, and spent the doctors called me a hopeless case. I began to use your medicine, and by the time I had taken twenty-two bottles I was entirely cured. I weigh more than ever before."

STEALS POULTRY

Thief in West Berkeley Overlooks Turkey Dinner.

BERKELEY, November 25.—A thief with a taste for game rather than turkey raided the poultry farm of Frank J. J. of West Berkeley Thursday evening. Although there were ten turkeys and ten geese in the coop, the thief overlooked the holiday birds and took the geese.

Neighbors heard a great commotion on the ridge's premises, but as no investigation was made the matter got away with his noisy booty. Deputy Marshall Carey believes he has a clue to the offender.

BITUMINIZE MAIN BERKELEY STREET

BUILDERS ARE BUSY

Work is Being Rushed on Substantial Berkeley Homes.

BERKELEY, November 25.—Builders are taking advantage of the fair weather that is prevailing to rush work on a large number of houses that are going up in all portions of the city.

J. G. Hay is erecting a two-story frame building at a cost of \$3500 on the south side of Blake street between Shattuck avenue and Fulton street.

J. Mansford B. Griffith is the owner and F. E. Armstrong the builder of a \$2800 two-story frame building on De la street.

Mrs. J. A. Coulter is building a \$2500 home on Ellisworth street at Russell.

On the west side of Regent street, between Derby and Ward, Miss D. Kiddie is putting up a house that will cost \$2300.

DEATHS FROM FOOTBALL.
CHICAGO, November 25.—The Record. Heald today says:
Thirteen deaths have resulted from football this season. The casualty list is the same as last year, but the number of serious injuries during the season just closed will exceed that of any year since the introduction of the modern college sport.

CHANNEL CLOSED.
ASTORIA, Or., November 25.—Captain Schrader of the steamer Sue Helmer reports that the south channel at the entrance to Tillamook bay has been closed by recent storms and the north channel narrowed.

FENCING JUNIOR CLASSES FARGE

New Sport is Introduced at the State University. Annual Student Play Presented Across the Bay.

BERKELEY, November 25.—Fencing is now to be made a feature of the athletic pastimes among the students of the University of California. Such a strong hold has the sport attained in gymnasium work that Chevalier Enrico Gargiulo of Rome has been engaged as an assistant to Professor Walter Magee in the instruction of the exercise.

Gargiulo is a professional fencer who attained considerable distinction in his country and New York before coming to this coast. Regular classes have been forming and the rapidity with which they are being filled shows that the sport will be popular at the University.

BERKELEY, November 25.—Before a large college gathering the annual farce of the junior class of the University of California was given this afternoon in the Grand Opera House, San Francisco.

Walter De Leon is the author of the play, "Just About Now," which was presented this afternoon. The story is that of a student, Jack Harvard, who visits a friend in Berkeley and falls in love with his sister who is interested in student work. He disguises himself as a "tough" and, accompanied by his valet, comes thus in contact with the girl he adores. The college student in West Berkeley is used as the scene of part of the farce. Miss Sophie Treadwell, considered one of the best character actresses in the University, had the role of a book agent.

The complete cast was as follows: Jack Harvard, Walter De Leon; Harold and Hastings, Charles F. Farge; Charles Burkhardt, (Jack's friend), Will Henry; Reginald von Barke, (Monsieur), Percy Wicks; Michael Monro, A. Childe; a traveler, Pat Bryant; William Courtney, George Dickie; Iva Notion, a book agent, Miss Sophie Treadwell; Grace Mieland, Miss Isabel McReynolds; Alice Burkhardt, Miss Ann Thacher; M. S. Burkhardt, Miss Phoebe Kinney.

GAMBLER IS SHOT ON STREET

HIS ASSAILANT, WHO HAS A RECORD, IS QUICKLY ARRESTED.

NEW YORK, Nov. 25.—Guy Roche, the gambler who was shot yesterday in Broadway near Thirty-fifth street, while the sidewalks were crowded with persons leaving the theaters after the matinee, was killed at an early hour this morning. It was said the New York hospital that he might live some time but that he was in small chance of his recovery.

The arrest of Stewart A. Felton, known also by several other names, charged with the shooting, was made by the police in some time, who saw the man who was shot running away from the scene of the shooting. One of the pursuers was a policeman, S. King. He went to the station and at the request of the police took on the spot the testimony of all the witnesses. Felton declared that he was a gambler and that he was in the habit of playing cards in the city. He said he was a gambler and that he was in the habit of playing cards in the city. He said he was a gambler and that he was in the habit of playing cards in the city.

STUDENTS SEARCH FOR FRENCH BOOKS

BERKELEY, November 25.—The students here are engaged in preparing for the annual French debate which is engaged in a busy search for reliable material. There is difficulty in getting material that is printed in the English language, and it seems probable that the debaters will again labor under the handicap of the aid of an interpreter. It is probable that the highest quality material available will be supplemented from the public and private libraries of San Francisco.

The faculty has decided that the debate this year as last. The contest will continue to be in the nature of an extemporaneous debate, the speech question to be discussed not being announced until two hours before the debate commences. Every debater is compelled to study thoroughly every subject of the debate. It is uncertain which side he will be called upon to defend. The debate will be held in the lecture hall of the University, Friday evening, February 5 next year.

INSPECTS THE PAID FIRE COMPANIES

BERKELEY, November 25.—The annual inspection of the Berkeley fire department took place yesterday afternoon when Mayor Richards inspected the four paid companies.

Chief Engineer lined up his men and their equipment on Shattuck avenue, near Center street for the benefit of the municipal government representatives. The "masheens" stood with unusual order and the men, uniformed and in full fighting trim, reported creditably. The chief of the opinion of the officials, who critically inspected both machinery and men.

A drill was gone through by the firemen, their officers eliciting praise from the onlookers.

EASTERN STAR HONORS MATRON

The officers-elect of Unit Chapter No. 65 (O. E. S.), were installed Friday evening by Mrs. Helen Edwards, past matron of the chapter. The attendance was very large. Past Matron Mrs. W. K. Sanborn, upon returning from the chapter which she has ably filled, was presented by the chapter with a handsome and costly Eastern Star pin and a large time-out-class loving cup. The gift of Past Matron Mrs. Parker, who was also the recipient of a beautiful Eastern Star pin. The rooms were elegantly decorated by Mrs. John Anderson with flowers of greenery, gladioli, and other selections from various sources.

MEDICAL CONGRESS WILL SOON MEET

NEW YORK, November 25.—Secretary Gutierrez of the Panama Medical Congress, has nearly completed arrangements for the fourth annual meeting of that body in Panama on January 2 to January 6 next. It is expected that about 300 physicians from this country will attend, one railway

URGEMANUALTRAINING FOR PUBLIC SCHOOLS

BERKELEY, Nov. 25.—Local enthusiasts who are interested in having manual training established in the Berkeley public schools are to hold a large mass meeting in South Berkeley early next week. The meeting will form a portion of the campaign that is being conducted in favor of having funds raised to the amount of \$20,000 for introducing manual training in the public schools.

GERMAN STUDENT SENT TO PRISON.

NEW YORK, November 25.—A student of the Technical High School, who is also an officer of the army reserve, has been sentenced by a military court to three months' confinement, says a Times dispatch from Berlin. The student was charged with the murder of a German officer, a charge which was attacked by the architect. The latter will be tried before a civil court.

Woman, why work? Log Cabin Bread is only a nickle.

You Can Try It For Yourself and Prove It.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs, or other indigestible food, and this has been proven by actual experiment, which anyone can perform or himself in the following manner: Cut hard-boiled eggs into very small pieces, as it would be if marinated, place the pieces in a bottle or jar containing warm water, heated to 98 degrees (the temperature of the body), and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as completely digested as it would have been in a healthy stomach of a hungry boy.

The point of this experiment is that Stuart's Dyspepsia Tablets will do to the egg or meat in the stomach, and nothing else will rest and invigorate the stomach safely and effectively. Even a little child can take Stuart's Tablets with safety and benefit if its digestion is weak and the thousands of cures accomplished by their regular daily use, as the easily explained when it is understood that they are composed of vegetable essences, aseptic pepsin, dextrose and Golden Seal, which mingle with the food and digest it thoroughly, giving the overworked stomach a chance to recuperate.

Dieting never cures dyspepsia, neither do pills and cathartic medicines, which simply irritate and inflame the intestines.

When enough food is eaten and promptly digested there will be no constipation, nor in fact will there be any indigestion, for the food is easily digested means good health in every organ.

The merit and success of Stuart's Dyspepsia Tablets are world-wide and they are sold at the moderate price of 50 cts. for full-sized package in every drug store in the United States and Canada, as well as in Europe.

Store opens at 8:30 A. M. Saturday excepted. Store closes at 5:30 P. M.

FACES THE AX

Another Student May be Slated For Dismissal.

BERKELEY, Nov. 25.—It is now feared by the friends of J. Gustav White, another prominent college man, that he may be dismissed for insubordination at the recent military lecture. The suspension was supposed to be similar to that which W. T. Hale, editor of the Daily Californian, has been ordered to undergo. White was charged with failure to obey Captain Nance's marching orders and with having participated in the riot on the campus following the order of the military instructor to the seniors to fall in line in front of North Hall and from there proceed in solidly style to the classroom, where the new commandant was prepared to lecture on military discipline.

White's excuse was deemed unsatisfactory by Captain Nance, and when Hale was suspended yesterday the belief was expressed that White would be the next man to feel the sharp edge of the official grill. Last night White was editor of the same college paper which this year proved to be the undoing of Hale. It gave the senior opportunity to express his own criticisms of the University. White, however, was looked upon as a conservative and it became his habit to "feature" the M. C. A. news on the front page of his paper and the college paper in his opinion of that practice, divers opinions and criticisms relating to the M. C. A. Association was. White is now president of the college and had not been dismissed temporarily from the University which had not yet been sent to him.

President Wheeler, when questioned concerning the story of White's alleged dismissal, said that Hale has thus far been the only student to be given notice of suspension in his case and that M. C. A. White had not yet been suspended by the University authorities.

ARCHITECT HODGDON TESTIFIES

Who Has Erected Some of the Finest Buildings in Pittsburg For Munyon's Paw-Paw and Says He Cured Him of Catarrh of the Stomach

No need to tell the people of Western Pennsylvania, West Virginia and Southern Ohio who C. W. Hodgdon, of Pittsburg, Pa., as his name as an architect has extended far beyond the confines of that city. He is an ardent believer in Munyon's Paw-Paw Tonic. This is what he says:

"Investigation, which finally resulted in Catarrh of the Stomach, brought on a case of Insomnia, and I was almost incapacitated for business. I was induced to try Munyon's Paw-Paw Tonic and the results were magical. A complete cure and now I feel as well as ever did."

It is such testimony as that which has in one brief year made Munyon's Paw-Paw Tonic and Paw-Paw Laxative Pills the most talked of remedies that the druggists' hands. Those who have Dyspepsia, indigestion or Constipation or who are nervous and cannot sleep make a serious mistake in not making an immediate trial of Munyon's Paw-Paw Tonic or Pills.

Munyon's Remedies—a separate card for each disease and Munyon's Witch Hazel and other toilet preparations, for sale every where.

BOOST BONDS

Improvement Clubs Are Doing Campaign Work.

BERKELEY, November 25.—Now that the proposed issue of bonds is about to be placed before the voters of the city, the various improvement clubs of the city are conducting educational campaigns in behalf of civic improvement.

The advantage of co-operation among all the improvement clubs of the city—The Ashby, North Berkeley, South Berkeley and West Berkeley organizations—to secure the passage of a bond issue and to accomplish other desirable things is now being discussed by members, and leading spirits in the organization are proposing a consolidation of all clubs which would be effective, they say, in the work of creating sentiment in favor of the proposed bond issue.

It is proposed to form the joint association on lines similar to those adopted by the Progress Federation of Alameda County, which includes representatives of improvement clubs and mercantile bodies, whose interests are identical with those of the clubs.

President Victor Robertson of the North Berkeley Improvement Club declares his belief that the proposed bond will prove to be a good investment for Berkeley. Secretary Harry Squires of the same club says that he looks upon a bond issue as a standing advertisement and an announcement to the world that a new era in Berkeley is about to begin.

Rev. E. A. Gurvin compares Berkeley to a beautiful suburb of Boston. He declares that the beauties of the Massachusetts suburb can be duplicated in Berkeley, and should be.

Speeches in similar strain have been made by W. W. Henry, M. L. Hanson, C. E. Street and other prominent members of the club.

Head of West Berkeley organization that his neighbors plan to organize an improvement club, and desire the advice and assistance of the North Berkeley men. President Robertson, Rev. E. A. Gurvin and R. Marston have volunteered to assist the West Berkeley folk in the work.

EXHIBIT ANTIQUE

University Will Throw Collection Open For Inspection.

BERKELEY, November 25.—The collections in classical archaeology comprising many rare original pieces of Greek and other Mediterranean art, and especially rich in Etruscan and other early Italian material, will soon be in shape for public inspection. This splendid collection is now housed in one of the buildings of the Affiliated Colleges on Parnassus Heights in San Francisco. For the past year Dr. Alfred Emerson, who was sent abroad by Mrs. Phoebe Hearst to gather the art works, has been engaged with his assistants in unpacking, restoring and setting up the various pieces of the exhibit, and the collection will soon be in such shape that it will be open to all visitors. At present the collections are open to scientific visitors or any persons specially interested in the efforts of the University to secure material for a museum that will compare favorably to the museum maintained by the universities of the East.

The collections are temporarily quartered in San Francisco, as there is no present room on the Berkeley campus for them. As soon as the museum building, now under way for the University of California, is completed the exhibit will be removed to the University gallery at Berkeley.

The collection now on hand was gathered personally by Dr. Emerson, who is an expert in ancient Greek and Roman art. It includes a large number of Etruscan bronzes, Greek vases, and other objects of great value. The collection is now in the hands of the University of California, and will be open to the public for inspection.

RAILROAD COMPANIES ISSUE A CIRCULAR

NEW YORK, November 25.—A circular is reported to have been issued to directors of all important railways with the sanction of important lines with headquarters here asking if it is advisable for the officials of railways to be stockholders in a manufacturing corporation selling its product to the roads for which they work. It is possible that the matter will be brought also before the Interstate Commerce Commission, fearing that favoritism in the placing of orders for supplies instead of accepting bids through open competition are back of the circular.

Some of the larger corporations have already adopted rules prohibiting any of their officials from being stockholders in manufacturing corporations. The committee of stockholders which is conducting the investigation will attempt to bring about an arrangement between all the railways, making it impossible for any of the officials or heads of departments to retain any financial interest in a manufacturing concern doing business with their roads.

WHIST TOURNAMENT PLANNED

CHARITABLE ENTERTAINMENT WILL BE GIVEN AT FRUITVALE.

FRUITVALE, November 25.—Next Wednesday a charitable entertainment will be given by the Catholic ladies in St. Elizabeth's Hall on Bray avenue. The affair will be a whist tournament with tasteful and unique prizes for the winners. The hall is to be prettily decorated in smiling and sociable, and everything is being done to insure the comfort and pleasure of the guests. An admission fee of twenty-five cents is charged, the proceeds to be applied to the relief of a sick family.

It is expected that there will be a larger number present than usual, both on account of the charitable nature of the endeavor and the lively rivalry between the various whist players of Fruitvale. There are several citizens whose game entitles them to the title of expert, and they vie with each other to collect as many whist trophies as possible. The tourney is cordially invited to attend the tourney and assist in helping the needy ones for whose benefit it is given.
